Judging of the 2018 Bridge Awards entries will take place February 19-21<sup>st</sup> for all new home, remodel and special feature entries. Judging will take place at the project site. A judging schedule will be issued prior to the judging event. A panel of building industry professionals will select winning entries. All judges are from outside the area of the Upstate. Judging criteria for all new home and remodel entries will be based on craftsmanship, demonstrated construction excellence and use of materials. All special feature entries require that the special feature be part of a home. Judging criteria for special features will be based on craftsmanship, innovation, creativity, function, use of materials and use of space. Judges will make every attempt to give an award in each category. However, awards will not be given in those categories where the quality of entries does not warrant a winner. Decisions of the judges are final. Entrants may review judging scorecards for their entry at the Home Builders Association of Greenville once awards have been announced.
